

SOFTWARE COMMUNICATIONS ARCHITECTURE SPECIFICATION

APPENDIX C: CORE FRAMEWORK INTERFACE DEFINITION LANGUAGE (IDL)

01 October 2012
Version: 4.0.1

Prepared by:

Joint Tactical Networking Center (JTNC)
33000 Nixie Way
San Diego, CA 92147-5110

Statement A - Approved for public release; distribution is unlimited (18 November 2013)

REVISION SUMMARY

Version	Revision	Date
Next <Draft>	Initial Draft Release	30 November 2010
Candidate Release	Initial Release	27 December 2011
4.0	ICWG Approved Release	28 February 2012
4.0.1	Incorporated transition to JTNC and applied SCA 4.0 Errata Sheet v1.0	01 October 2012

APPENDIX C CORE FRAMEWORK IDL

C.1 SCOPE

The Core Framework (CF) interfaces are expressed in Interface Definition Language (IDL). Any IDL compiler for the target language of choice may compile the generated IDL.

The CF interfaces are contained in the CF module. The StandardEvent Module contains the standard event types to be passed via the event service.
